GLOBAL HEALTHSPAN POLICY INSTITUTE

Hello,

This week we learn more about potential treatments for Coronavirus, and we get a look at new research from Stanford that shows an ability to regenerate aging cells.

We also hear from GHPI Fellow Ilia Stambler about ways Israel and the US can further partner in the field of geroscience.

Before you go, don't forget to check out the list of upcoming conferences and events in the world of aging research. You'll see events updated every week, so keep checking in!

Are you part of a health or life extension research organization? Our coalition has grown to over 90 member groups, including 25 major US organizations and 16 major international groups. We hope your organization will be next! Check below to find a link to join our coalition quickly and easily.

All this and more this week. Join us as we move forward into another exciting month of incredible opportunities in this burgeoning and revolutionary field.
