Hello,

This week we get a look at a number of new articles on COVID-19 and aging, learn about a new collaborative effort from the NIH and get a view of several private longevity companies from an investor's perspective. We'll also learn how developments in aging research could help solve America's health care crisis.

Are you part of a health or life extension research organization? Our coalition has grown to over 90 member groups, including 25 major US organizations and 16 major international groups. We hope your organization will be next! Check below to find a link to join our coalition quickly and easily.

All this and more this week. Join us as we move forward into another exciting month of incredible opportunities in this burgeoning and revolutionary field.
