Hello,

This week we learn about an intriguing decline in serious hearing loss among older Americans, how certain cancer treatments could be repurposed to fight Alzheimer's and how the popular Keto Diet could have positive effects on aging. We also get ten great tips to help us age well in the new year.

Are you part of a health or life extension research organization? Our coalition has grown to over 90 member groups, including 25 major US organizations and 16 major international groups. We hope your organization will be next! Check below to find a link to join our coalition quickly and easily.

All this and more this week. Join us as we move forward into another exciting month of incredible opportunities in this burgeoning and revolutionary field.

Edwina Rogers, CEO
Global Healthspan Policy Institute

2008 to 2017 Saw Decline in Serious Hearing Loss in U.S. Seniors

Researchers identified a notable reduction in serious hearing loss in older Americans from 2008 to 2017. While the reasons for the decline are not fully understood, this could lead to new therapies to further reduce hearing loss in the future.

All Call For Volunteers For Healthier, More Productive Years of Life!

What if the US Congress took the lead funding healthspan research? Or by removing barriers to treatments to new therapeutics that can prevent diseases like cancer?

For the first time governments seem to be listening -- and you can help!

GHPI needs volunteers to engage with the public and ally nonprofit groups around the world.

Contact dcarver@healthspanpolicy.org to join the tiger team today!

Upcoming Events

Due to the ongoing COVID-19 Pandemic events are very limited. As new ones are publicized, we will include them here.
