

Global Healthspan Policy Institute

[View this email in your browser](#)

Hello,

This week we learn how The Buck Institute is working to extend the human healthspan, how a UO professor is examining new aspects of aging and how a new brain imaging study hopes to discover new therapies for Alzheimer's. We also hear from the NIA about the relationship between amyloid beta protein and dementia.

Are you part of a health or life extension research organization? Our coalition has grown to over 90 member groups, including 25 major US organizations and 16 major international groups. We hope your organization will be next! Check below to find a link to join our coalition quickly and easily.

All this and more this week. Join us as we move forward into another exciting month of incredible opportunities in this burgeoning and revolutionary field.

Edwina Rogers, CEO  
Global Healthspan Policy Institute

### The Buck Institute, where the promise of aging research isn't longevity

A profile on the work The Buck Institute is doing to extend the human healthspan

### GHPI Coalition Grows to Over 90 Members

Our coalition includes 25 major US organizations and 16 major international organizations. Will yours be next?

By joining the coalition you get access to the GHPI fellows, top experts in aging research. You gain more influence over national and world events. You are invited to our pilot projects. You get access to healthspan investment funds and our ability to promote your achievements. You get news updates, and can join our weekly coordinating call that steers the future of the healthspan movement.

### We're Bringing the Best Research in the World to Congress - and Your Donations Are The Fuel To Our Fire!

With your help, we're bringing the vision of a world without the spectre of diseases like cancer, heart disease, and Alzheimer's one step closer to reality each and every day. Our team works closely with industry leaders from sectors as far-reaching as biotechnology to gene therapy to pharmaceuticals and beyond – uniting our members under a common, core mission to benefit the public trust.

[Help us bring new preventions and therapeutics for the benefit of all generations, today.](#)

### Upcoming Events

Due to the ongoing COVID-19 Pandemic events are very limited. As new ones are publicized, we will include them here.
