Hello,

This week we learn how alcohol plays a major role in cancer risk, how a common diabetes drug has been tested to measure its life extension benefits and how heavy cadmium exposure can increase risk of memory problems in some groups of people. We also learn about a new resort brand that will have a focus on longevity

Are you part of a health or life extension research organization? Our coalition has grown to over 90 member groups, including 25 major US organizations and 16 major international groups. We hope your organization will be next! Check below to find a link to join our coalition quickly and easily.

All this and more this week. Join us as we move forward into another exciting month of incredible opportunities in this burgeoning and revolutionary field.
